About this release

This release by Information Services Division (ISD) provides a monthly update on the number of patients in NHSScotland who have had their planned hospital operation cancelled the day before, or on the day of their planned operation and the reason for this cancellation.

Main points

- The total number of planned operations across NHSScotland during February 2020 was 27,645, which is similar to during February 2019 when there were 27,762.
- 2,481 operations (9.0% of all planned operations) were cancelled in February 2020, ranging from 5.6% to 12.4% across individual NHS Boards. This compares to 2,455 (8.8%) in February 2019.
- In February 2020, of all planned operations:
  - 3.3% were cancelled by the patient;
  - 3.3% were cancelled by the hospital based on clinical reasons;
  - 2.0% were cancelled by the hospital due to capacity or non-clinical reasons;
  - 0.3% were cancelled due to other reasons.
Background

These statistics are released monthly. Data for this publication are submitted from NHS Board theatre systems.

The below definitions are used for the cancellation reason groupings:

- Cancellation based on clinical reason by hospital includes patient unwell, patient not prepared for procedure correctly by hospital and patient did not follow pre op instruction.
- Cancellation based on capacity or non-clinical reason by hospital includes no beds available, staff not available, equipment not available and theatre session overran.
- Cancellation by patient includes patient decides not to go ahead with procedure, patient unable to attend, patient did not attend and patient did not attend pre-op.
- Other includes fire alarm prevents operation from taking place, weather prevented patient / staff travelling and patient transport did not arrive in time to bring patient to hospital.
