About this release

This release by Public Health Scotland (PHS) provides a monthly update on the number of operations in NHSScotland that were cancelled the day before, or on the day the patient was due to be treated. Information on the reasons for cancellations are also included.

These statistics are affected by the COVID-19 (Coronavirus) outbreak. In particular, on the 17 March, NHS Scotland was placed under emergency measures and Boards were asked to suspend all non-urgent elective treatment, which resulted in most operations being cancelled far in advance of their planned date. As Scotland moved into Phase 2 of the ‘lockdown’, from the 19 June, Boards started to resume some services as part of the planned remobilisation of services, which will include the rescheduling of cancelled procedures.

Main points

- The total number of planned operations across NHSScotland during July 2020 was 11,224, an increase of 60.7% from 6,984 in June 2020 and a decrease of 58.3% from 26,890 in July 2019.
- In July 2020, 699 operations, or 6.2% of all planned operations, were cancelled the day before or on the day the patient was due to be treated. This compares to 465 (6.7%) in June and 2,345 (8.7%) in July 2019. At Health Board level this percentage ranged from 1.1% to 10.3%.
- In July 2020, of all planned operations cancelled in this way:
  - 185 (1.6%) were cancelled by the patient;
  - 345 (3.1%) were cancelled by the hospital based on clinical reasons;
  - 143 (1.3%) were cancelled by the hospital due to capacity or non-clinical reasons;
  - 26 (0.2%) were cancelled due to other reasons.
Background

These statistics are released monthly. Data for this publication are submitted from NHS Board theatre systems.

The following definitions are used for the cancellation reason groupings:

• Cancellation based on clinical reason by hospital includes ‘patient unwell’, ‘patient not prepared for procedure correctly by hospital’ and ‘patient did not follow pre-op instruction’.
• Cancellation based on capacity or non-clinical reason by hospital includes ‘no beds available’, ‘staff not available’, ‘equipment not available’ and ‘theatre session overran’.
• Cancellation by patient includes ‘patient decides not to go ahead with procedure’, ‘patient unable to attend’, ‘patient did not attend’ and ‘patient did not attend pre-op’.
• Other includes ‘fire alarm prevents operation from taking place’, ‘weather prevented patient / staff travelling’ and ‘patient transport did not arrive in time to bring patient to hospital’.
